

Mechanical Design Engineer

Competitive Salary Package
Takapuna Based

Do you want to work for a leading NZ Mechanical Engineering Consulting Business that recognizes the importance of work/life balance, in a location where you can take your lunch break walking along Takapuna beach, enjoy the many local cafes or make use of gyms?

Dobbie Engineers, an award winning consultancy, has an opportunity for you to further develop in the Mechanical Engineering field working on a variety of industrial projects in areas such as dairy, energy, pulp and paper and geothermal.

You would be supported along your path to becoming a chartered engineer, and be rewarded with a competitive salary package.

An ideal candidate would possess:

- Bachelor of mechanical or process engineering with 2 – 5 years relevant experience
- Strong analytical skills with attention to detail
- Practical approach to design
- A desire to visit industrial plants and construction sites
- Experience with the design of industrial plant installations, pressure equipment and piping, pump and control equipment selection and equipment supports
- Ability to work in a team environment, wanting to grow technically and professionally

Naturally you will be a strong team player with proven communication skills and have the ability to build strong relationships. If this sounds like you, then we are interested in talking to you.

**Applicants for this position must have NZ residence or a valid NZ work permit.
Please submit your CV to careers@dobbie.co.nz**
