

Graduate – Intermediate Mechanical Engineer

ROTORUA

Dobbie Engineers is an award winning mechanical engineering consultancy with offices in both Rotorua and Auckland. Being one of the country's largest mechanical engineering design consultants, our high performing design staff are well respected in many of New Zealand's industries. We apply our expertise to large-scale projects in the dairy, energy, pulp and paper and mining industries, and our geothermal work has received a number of awards.

Our Rotorua office currently has an opening for a Graduate Mechanical Engineer with 0-4 years experience to join our team in Rotorua.

This role will have you working on a variety of industrial projects as part of our project teams. Your workload will primarily be focused on detailed design and analysis, report writing, equipment selection and project management relating to the design and construction of industrial plants. You will be given the opportunity to diversify your skills across a number of disciplines and industries.

As an ideal candidate you will possess the following:

- Bachelor of mechanical or mechatronics engineering with 0 - 4 years relevant experience
- Strong analytical skills with attention to detail
- Practical approach to design
- Keen to visit and work in industrial plants and construction sites
- Excellent communication skills. Our staff often work with other consultants, contractors and client teams. Clear communication is essential
- An ability to participate and perform as part of a design or project management team
- Experience with the design of pressure piping systems, industrial plant installations, pump and control equipment selection and project management would be advantageous
- A desire to become a chartered professional engineer

Naturally, you will be a strong team player with proven communication skills, and have the ability to build strong relationships. We are committed to fostering a culture that empowers our people and promotes teamwork and encourages sustainability.

In return, we offer:

- Opportunity for career growth
- Diverse, interesting and challenging projects
- A great team environment, local to Central North Island mountain biking, lakes and outdoor leisure activities
- Ongoing mentoring, technical and non-technical training
- Competitive salary package including payment for extra hours worked
