

Mechanical Draftsperson

AUCKLAND BASED

Are you looking to work for a leading New Zealand Mechanical Engineering Consulting business who are as committed to their performance culture as they are to a work / life balance?

Dobbie Engineers are an award-winning consultancy, providing first class engineering solutions to clients throughout New Zealand. With offices in Auckland and Rotorua they are involved in large and challenging projects across various sectors including Dairy, Pulp & Paper, Geothermal, Hydroelectric, Gas and Coal.

Due to continued success and growing demand for their engineering expertise they are now seeking a Mechanical Draftsperson to join their high performing Auckland team.

In this position you will be working to design and detail mechanical equipment, ensuring it integrates seamlessly with existing manufacturing operations. The primary CAD packages are AutoCAD and Inventor. Being proficient in these packages is highly beneficial but having experience using other CAD packages could also be advantageous.

Our ideal candidate would possess:

- 3+ year's experience working as a Mechanical Draftsperson or CAD Technician
- Proficiency in 3D Modelling Software to design / detail industrial plant installations, pressure equipment, piping, plant and equipment supports
- A solution focused approach to design and proven problem-solving skills
- Ability to work in a team environment and build strong relationships

A competitive salary and benefits package is on offer along with an excellent working environment and the opportunity to work on varied and challenging projects. This is an ideal role for someone looking to join a strong team of engineers, with a desire to grow technically and professionally.

Please submit your CV to careers@dobbie.co.nz.

Applicants for this position must have NZ residence or a valid NZ work permit.
