

Senior Mechanical Engineer

Project Leader
Rotorua Based

Are you looking to work for a leading NZ Mechanical Engineering Consulting Business, who are as committed to their performance culture as they are to work/life balance?

Dobbie Engineers are an award-winning consultancy, providing first class engineering solutions to clients throughout New Zealand. With offices in Auckland and Rotorua they are involved in large and challenging projects across various sectors including Dairy, Pulp & Paper, Geothermal, Hydroelectric, Gas and Coal.

Due to continued success and growing demand for their engineering expertise they are now seeking a **Senior Mechanical Engineer** to join their high performing Rotorua team. You will get to use your consulting experience along with your technical ability to design and deliver mechanical solutions for key projects from concept to completion.

You will take the lead on multi-disciplinary projects from both technical and project delivery perspectives and be able to bring teams together to ensure the client is completely satisfied. Mentoring and developing junior/intermediate level engineers is also a key part of this role.

An ideal candidate would possess:

- 10+ year's experience working as a Mechanical Engineer in a consulting environment
- Demonstrated experience leading and managing projects to successful outcomes
- The ability to develop lasting relationships with customers and peers
- Excellent time management and team leadership skills
- Experience mentoring and coaching other engineers
- CPEng accredited

A competitive salary and benefits package is on offer, along with an excellent working environment and the opportunity to work on varied and challenging projects. This is a permanent position to join a strong team of engineers and will offer career progression, with a pathway to Director for the right individual.

**Applicants for this position must have NZ residence or a valid NZ work permit.
Please submit your CV to careers@dobbie.co.nz**
